THE DENT SHOP GLUE TABS

By far the strongest holding glue tabs on the market in a variety of sizes. They come in a pack of 10. You won't be disappointed!

Available Sizes (shown from left to right)

Small (17mm)	Product Code: TDS-GT1
Medium (23mm)	Product Code: TDS-GT2
Large (27mm)	Product Code: TDS-GT3
X-Large (34mm)	Product Code: TDS-GT4

DENTOUT GLUE

For summer and hot temperature gluing above 20°C, the red glue is perfect; the yellow glue is perfect for winter and cold temperature gluing below 20°C. Each comes in a bundle of 10 sticks.

Available Colours

Red (Hot Temp)	Product Code: DO-RG
Yellow (Cold Temp)	Product Code: DO-YG

THE DENT SHOP BLACK GLUE

This is a fantastic universal glue. It is our most commonly used glue as it works best in all temperatures. They come in a bundle of 10 sticks.

Product Code: TDS-BG

SOFT KNOCKDOWN HAMMER

This hammer goes hand-in-hand with our tappers and is loved worldwide by PDR technicians because it is so supple and quiet.

Product Code: SKH

THE DENT SHOP TAPPER

The short point tapper is our most popular and fantastic product for tapping. The fine long point tapper is best used for free-handed tapping and is easy to grip. All are Aussie-made and provide accuracy and access to intricate areas. The long round tapper is perfect for blending.

Available Sizes (shown from left to right)

Short Point (Fine)	Product Code: TDS-TSPF
Long Point	Product Code: TDS-TLP
Long Point (Fine)	Product Code: TDS-TLPF
Long Round	Product Code: TDS-TLR

MEGUIAR'S® 1500 or 2000 GRIT SANDING BLOCK

A trusted American name for sanding blocks, the 1500 grit provides a courser result, while the 2000 grit provides a gentler result when de-nibbing.

Available Grits

1500 Grit	Product Code: MSB-1500
2000 Grit	Product Code: MSB-2000

3M® SANDING DISCS

The most universal sanding system, this product goes hand-in-hand with the 3M Sanding Knob. These discs are 1500 grit and come in packs of 50.

Product Code: 3M-SD

3M® SANDING KNOB

The most universal sanding system, this product is easy to use and great for de-nibbing areas that sanding blocks cannot access. Eg. Sweep areas. This product is to be used in conjunction with the 3M® Sanding Discs (shown at left).

Product Code: 3M-SK

THE DENT SHOP SLIDE HAMMER

This full-sized slide hammer fits all styles of glue tabs. It has an aluminum billet head and is currently the best quality slide hammer available.

Product Code: TDS-ASH

RINGERS GLOVES

Ringers gloves are durable and flexible. They provide sensitivity when touching, whilst being long-lasting.

Product Code: RG

THE DENT SHOP HOT GLUE GUN

This 12V hot glue gun is simple and effective. Just plug it into the cigarette lighter of the car you are working on and begin using it. With a 2m cord it is easy to manoeuvre around most cars. No more extension cords or plugs required!

Product Code: TDS-HGG

PORTABLE LIGHT SYSTEM

Imported from the USA, these lights reach a maximum height of 2m and are perfect for working on most cars. They have a 360 degree swivel head, so can be used in any direction. Due to customer preference, this product does not come with the fixture or tube.

Product Code: TDS-PLS

IRWIN UNIBITS®

These genuine Irwin Unibits come from the most trusted name for drill bits. These two unibits are of the highest quality, with the smaller of the two drilling 1/2" holes, and the larger, more universal unibit drilling 1/4"-3/4" holes in 1/16" increments.

Available Sizes (shown from left to right)

1/2" Unibit	Product Code: 12-IUB
1/4"-3/4" Unibit	Product Code: 1434-IUB

ROPE RATCHETS

The only choice for Paintless Dent Repairers! These rope ratchets are great for holding down car panels. Their design is simple to use and strong, while being light, compact and easy to pack.

Available Sizes (shown from left to right)

1/8" Rope Ratchet	Product Code: 18-RR
1/4" Rope Ratchet	Product Code: 14-RR

ADJUSTABLE BONNET PROPS

These bonnet props enable dents to be removed from bonnets and boots whilst the panel remains on the car. They are made from aluminum and quickly adjust up and down to suit the height of the panel you are working on.

Product Code: AA-BP

BLACK HOLE PLUGS

These OEM style plugs are an excellent choice for covering unsightly holes, offering more panel protection and a factory design look. The 1/4", 3/8" and 1/2" hole plugs come in packs of 100 and the 3/4" in packs of 50.

Available Sizes (shown from left to right)

1/4" Hole Plugs	Product Code: 14-BHP
3/8" Hole Plugs	Product Code: 38-BHP
1/2" Hole Plugs	Product Code: 12-BHP
3/4" Hole Plugs	Product Code: 34-BHP

BONNET CLIP PADS

The universal clips are black, easy to insert, fit most standard cars and factory holes, and come in small or large in 100 packs. Ford-specific clips come in 100 packs; Toyota-specific clips come in 50 packs.

Available Sizes (shown from left to right)

Small Universal	Product Code: BPC-SU
Large Universal	Product Code: BPC-LU
Ford Clips	Product Code: BPC-F
Toyota Clips	Product Code: BPC-T

THE DENT SHOP TURRET BAR

This turret bar is perfect for difficult-to-reach dents on turrets, large vans and buses. Its hooks fit into factory holes and the bar extends, allowing you more leverage for those larger and hard-to-reach areas.

Product Code: TDS-ETB

THE DENT SHOP S-HOOK

The Dent Shop S-Hook is an excellent addition to our door hanger. With both a 4mm AND a 6mm hook it can be used in all tail lights, and to hang from most braces.

Product Code: TDS-SH

THE DENT SHOP WINDOW GUARD

Our window guard works in conjunction with our window wedge, shielding windows from scratches and providing a safer, broad work area.

Product Code: TDS-WG

**Check out our Dent Pushing Kit
for Big Savings on Everything You Need!**

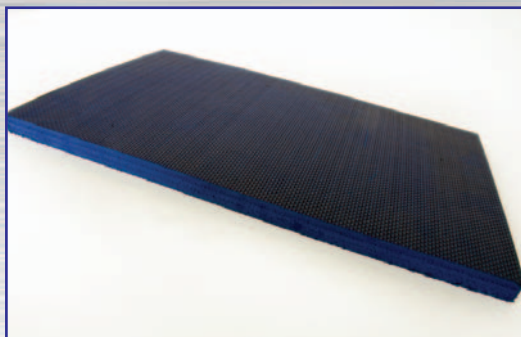

(in the kit section)

THE DENT SHOP STRAIGHT WINDOW WEDGE

Our window wedge is a universal style and offers the ideal opening between window and mould for easier, faster tool access.

Product Code: TDS-SWW

THE DENT SHOP KNEELING PAD

Designed with your comfort and protection in mind, this item will be your knee's best friend while you are working on sides! This kneeling pad is double the thickness of many standard knee pads, meaning it lasts longer and protects you more!

Product Code: TDS-KP

DOOR JAMMER

The door jammer allows you to move further away from dents on doors, allowing a more accurate repair.

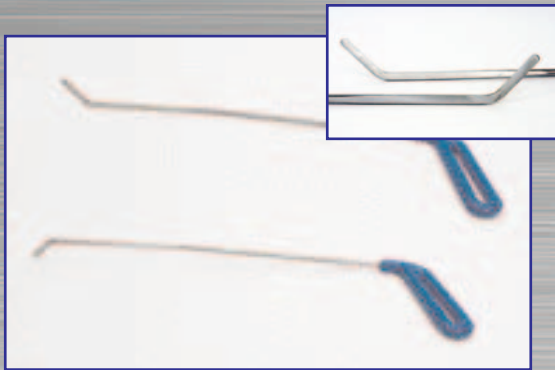

Product Code: DJ

THE DENT SHOP DOOR HANGER

Our door hanger is great for any size turret and adjusts up and down to suit all door frames.

Product Code: TDS-DH

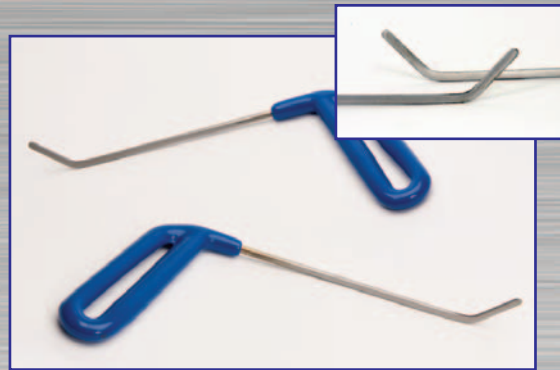

1/4" x 18" HAND TOOL – LEFT OR RIGHT

1/4" diameter wire by 18" long, this A1 hand tool is perfect for use through factory holes and under braces. It is made from spring steel with a rounded tip pointing to your choice of left or right, with sides machined flat.

Available Styles (shown from top to bottom)

Hand Tool – Left	Product Code: 1418-HTL
Hand Tool – Right	Product Code: 1418-HTR

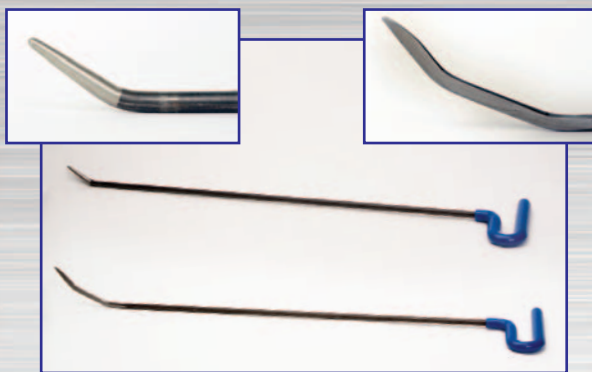

3/16" x 8" HAND TOOL – LEFT OR RIGHT

3/16" diameter wire by 8" long, this A1 hand tool is perfect for use through factory holes and under braces. It is made from spring steel with a rounded tip pointing to your choice of left or right, and sides machined flat.

Available Styles (shown from top to bottom)

Hand Tool – Left	Product Code: 3168-HTL
Hand Tool – Right	Product Code: 3168-HTR

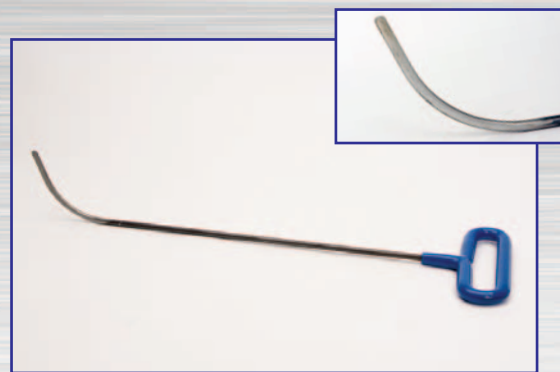

1/2" x 38" ROD & 7/16" x 38" DOUBLE KICK

The 1/2" diameter by 38" long A1 spring steel rod has a rounded and tapered tip with an open loop handle. It's great for repairing open panels like turrets and bonnets.

Product Code: 1238-R (shown on top and left)

The 7/16" diameter by 38" long A1 spring steel double kicking rod has a thin flat tip and knife blade shape. The most universal of tools, it repairs dents on most panels.

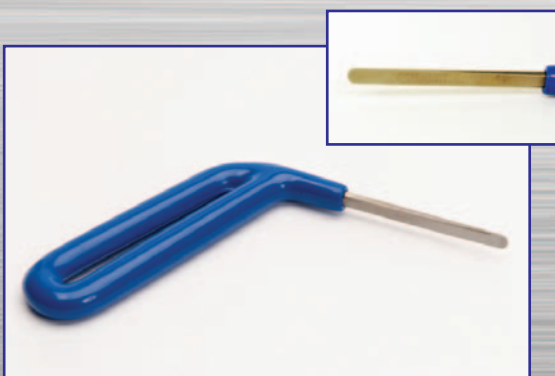

Product Code: 71638-DK (shown on bottom and right)

5/16" x 24" DOOR TOOL

This 5/16" diameter shaft by 24" long door tool is perfect for repairing dents in doors. Its tip length is 4" and is shaped to a right angle. It is made from spring steel, with a closed loop handle, rounded tip, and sides machined flat.

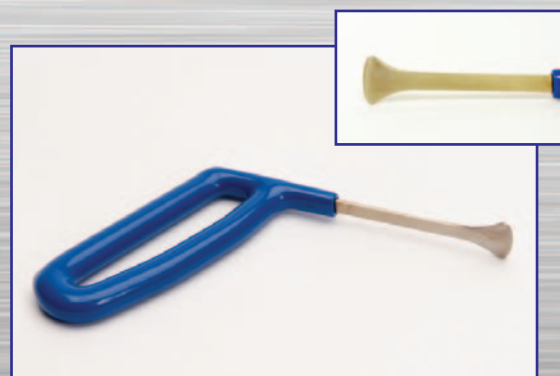

Product Code: 51624-DT

1/4" x 4" PUSH TOOL

This 1/4" diameter by 4" long A1 push tool is great for repairing under braces, through factory holes and in open areas. It is made of spring steel and has a flat rounded tip.

Product Code: 144-PT

3/4" x 5" WHALE TAIL

This 3/4" wide hammer-forged head by 5" long A1 whale tail is great for repairing dents under tight braces. Shaped like a whale's tail, it is made of spring steel and has a flat tip with rounded edges.

Product Code: 345-WT

GENUINE CALIFORNIA WATER BLADE®

Introducing the Jelly Blade! The latest in the original CWB range, this product provides fast, easy removal of water and its flexibility allows better coverage of the car's curved panels.

Product Code: CWB

TRAINING

Australian Supplier of Paintless Dent Repair Tools & Accessories

The Dent Shop is an Australian-owned and operated company. We supply the highest quality paintless dent repair (PDR) tools, accessories and training at the best prices. After many years in the making, The Dent Shop opened its doors in September 2007 with the intention of providing easy access and excellent service and prices to those in the PDR industry here in Australia. Our PDR tools and accessories are designed to repair hail damage, small to medium-sized door dents and minor accident dents on cars, trucks and other vehicles, without costly and time-consuming repainting. While The Dent Shop's initial interest was in servicing hail and other professional dent technicians, we have had an overwhelming amount of interest from many Australian smash repair shops and panel beaters, as well as individuals from the wider community.

The Dent Shop takes orders via telephone, our website and eBay store, and our packing and shipping warehouse is located in South-West Sydney, NSW. Our main focus is on providing the best quality PDR tools, accessories and training at a competitive price and delivery time. We also manufacture and supply as many Australian-made accessories as possible, thereby keeping the money in Australia for Australians, all while improving the quality of the product available on the market. The Dent Shop recognises the need to have high-quality, well-branded PDR tools and we pride ourselves on importing the PDR tools that are recognised as the best in the industry at extremely competitive prices. Our training system is taught by a world-renowned PDR expert who has been working full-time in the industry for more than 12 years and is almost impossible to get trained by. This system comes with everything you need to start learning and practising the art of PDR. The system has proven such a great success that we were recently approached by TAFE NSW who are now using parts of our program in their classes.

Additionally, The Dent Shop has developed a database of PDR technicians and companies, as well as smash repair shops and panel beaters to better serve our customers. We have added this list to our website as referrals to our customers requiring service. We feel it is important that our industry join together, giving customers easier access to services by providing them all in the one place. Please contact us if you would like to be listed for referrals.

Since opening in 2007, The Dent Shop is proud to say that many Australians have responded well to our products and services and that we are now exporting some of our Australian-made products to the United States and Europe. Our union with TAFE NSW is also helping our name and brand to develop. As we grow and expand we endeavour to pass on our growth to you, our Australian customers, by expanding our product range to meet your needs, all while maintaining competitive trade prices.

Please feel free to look around our website. We look forward to working with you soon.
